DESIGNER'S NOTE AND SUPPORT

I hope you had fun building this model, sorry for the lack of precise instructions, but this model was first meant for my personal use. You can use the .pdo file as a reference.

You can support my past and future works by sending donations via paypal to this adress:

fgibon@caramail.com

unfortunately, my free time is now too rare and precious to work on papercrafts as much as I would like to. If this model is popular, I promise you'll get more of them!

Of course, your suggestions, comments, critics and remarks are welcome. I also have a sheet without dotted lines, which is sure a nice addition to the challenge!
