IBUPROFEN: NEW HEART DANGER

TAKING ibuprofen for just a week is enough to increase the risk of a heart attack by up to a half.

A major analysis has unmasked the health scare in the popular anti-inflammatory drug, with evidence suggesting the danger increases after just one day.

By **Giles Sheldrick**

Scientists say over-the-counter and prescription pills – including ibuprofen, diclofenac, celecoxib and naproxen – should now be used with care and at
