

CL4P-TP "Claptrap" General Purpose Robot

This CL4P-TP unit would love to get out there and see the world. Please assemble him carefully and take him along on your next vacation, picnic, dance party, or other diversion. He's also very photogenic, so be sure to capture a few photographs of him standing proudly next to your nearest historical landmark, tall structure, old growth forest, industrial park, fault line, giant tortoise, or other point of interest. Send your favorite photo of CL4P-TP to <http://www.facebook.com/borderlandsgame>.

This is what your assembled "Claptrap" Paper Foldable should look like

Assemble interior section on next page of template before fitting exterior body and arm pieces from this page

Assemble interior section from pieces on this page of the template before fitting the exterior section and arms to complete your "Claptrap" Paper Foldable
