

# MAKE YOUR VERY OWN PHOTO KALEIDOCYCLE

for complete directions with pictures go to [foldplay.com](http://foldplay.com) (click on kaleidocycle).  
watch the slide show before constructing your first kaleidocycle.

detailed instructions,  
illuminating videos,  
& more fun stuff at

## SUMMARY OF DIRECTIONS

1) print on light  
cardstock or standard  
printer paper.

2) score all vertical  
and diagonal lines  
before cutting.

3) cut out figure  
on heavy black lines.  
4) fold all vertical lines with  
printed side together.  
(valley fold)

5) fold all diagonal lines  
with blank side together.  
(mountain fold)

6) gently encourage the model into  
a tubular form by pushing the two  
points labeled A towards each other.  
7) glue the diamond-shaped point A  
onto to white triangle A.

8) glue the diamond-shaped point B  
onto to white triangle B.  
9) bring the tab C to edge C forming a ring.  
glue the printed side of tab C to the  
blank side of edge C using the vertical fold  
as a guide. don't make the ring too tight.  
the picture overlaps a bit to give the model play.

10) glue the printed side of tab D to the  
blank side of edge D using  
the vertical fold as a guide.  
11) glue the the diamond-shaped point E  
onto to white triangle E.  
you're done! (after the glue dries.)  
pull on the outside edge while pushing up  
from underneath to "turn" your kaleidocycle.
