REDS

DARTH MAUL

- **First Appearance:** *Star Wars: Episode I - The Phantom Menace*
- Maul's lightsaber was not actually one piece, instead it was two single-bladed lightsabers conjoined at the pommel. This was why it still functioned after being split by Obi-Wan.

COUNT DOOKU

- **First Appearance:** *Star Wars: Episode II - Attack of the Clones*
- Dooku's lightsaber was meant to portray an older and more sophisticated user. The curved hilt was meant to emulate a rapier handle, down to the claw-like guard.

DARTH SIDIOUS

- **First Appearance:** *Star Wars: Episode III - Revenge of the Sith*
- Despite being one of the best swordsmen in the galaxy, Darth Sidious preferred to use manipulation and his mastery of the Force to combat enemies.

DARTH VADER

- **First Appearance:** *Star Wars: Episode IV - A New Hope*
- The original prop used in *A New Hope* & *The Empire Strikes Back* was lost. The saber hilt used in *Return of the Jedi* is believed to be a 'look-alike' saber or a modified version of Anakin/Luke's saber from the first two films.

THE INQUISITOR

- **First Appearance:** *Star Wars: Rebels - A New Hero* (Picture Book)
